D/DCI/IC

SUBJECT: DCI Role in DIA Briefing to Senate Armed Services
Subcommittee

1. Your staff had no role in preparing or coordinating the 1 March DIA briefing to the Tactical Air Power Subcommittee of the Senate Armed Services Committee.
2. This was an annual "update" presentation DIA makes on the status of tactical air in Europe, other than U.S. forces. The briefing covered developments of the past year in Soviet/Warsaw Pact forces and the non-U.S. elements of NATO. It is not a net assessment, but is used by the Subcommittee in the follow-on deliberations concerning U.S. forces.
3. A copy of General Faurer's 1 March presentation is being provided to us.
4. As a courtesy, other elements of the Community normally keep your staff advised as to scheduled appearances before the Congress. At this time of year, these appearances are largely related to budget matters. An example of another type of presentation, however, is the scheduled appearance on 16 March of Lieutenant General Wilson, Director of DIA, at a closed session of the Senate Foreign Relations Committee to discuss developments and trends in Soviet strategic forces. This session arises from Senator Percy's active interest in Soviet-U.S. nuclear strategy.
